**SOME QUERIES ANSWERED.**  
If a faint white hand should slip into mine,  
I'd squeeze it. Well, now I'd squeeze it  
I'd feel like a clasp—such a chance to resist—  
I couldn't keep from it, and wouldn't.

If a trim little waltz I should find in my arm—  
Now where the fellow that would't  
Who is such a questioner could find any harm?  
I'd swear that I wouldn't, and wouldn't.

If a hearted fellow were turned out on my own,  
With no one to say that I shouldn't,  
I'd give him a piece of my mind, and I wouldn't  
I wouldn't, I wouldn't, I wouldn't.

## RELIEF IS IN SIGHT.

Local Thunderstorms and Lower Temperature Probable in Several States.

NO GENERAL RAINS ARE PREDICTED.

Prospects of Showers Wednesday in the Ohio and Mississippi Valleys and Upper Lake Region.

Thunder Storms in North Dakota. Northern Illinois, and Portions of Ohio, Missouri and Arkansas occurred Monday.

Washington, July 16.—Relief for the heat-stricken district of the great corn belt Tuesday was predicted by the weather bureau Monday. No thunder rains apparently are in sight but thunder showers, with consequent lower temperatures, are probable in Nebraska, Kansas, Missouri, Iowa, Illinois and possibly Indiana. There is a prospect of a continuance of these showers Wednesday in the Ohio and Mississippi valleys and in the upper lake regions, bringing cooler weather for the time being.

Monday the hot weather continued throughout the corn belt and over the lower lake region and upper Ohio valley, but temperatures fell considerably during the early evening over the latter district under the influence of local thunder storms. No thunder storms occurred in North Dakota. Northern Illinois, portions of Ohio, Missouri, and Arkansas, and afforded some relief from the heat.

Knows of the weather. Topeka, Kan., July 16.—F. D. C. Burns, secretary of the state board of agriculture, does not share in the general opinion of the rain that has come upon Kansas as a result of the present dry spell. Mr. Burns states that there are over 900,000 acres of alfalfa and alfalfa in the state which has not been watered. He estimates that there are 400,000 head of old corn in the hands of 30 farmers, nearly a fourth of the average crop. The farmer who has no corn for the last two years will not be seriously crippled.

Springsfield, Ill., July 16.—Avalanche from all over the eastern and southern parts of the state are the result of the fact that the continued heat and drought is injuring the corn badly. Potatoes, apples, berries and in fact almost all vegetation is suffering greatly.

### WELCOME RAIN.

A Portion of the Drought-Stricken Southwest Was Relieved by Topical Showers.

Kansas City, July 16.—A portion of the drought-stricken southwest has been relieved by rain during the past 24 hours. Green good has already resulted to crops, and as there are prospects Monday night of a further downpour, it is believed thousands upon thousands of farmers will be saved farmers on stock and crops. Nevertheless much greater quantities of rain must come before a lasting benefit is done. In the belt of central and western Missouri, western Kansas and the territories still untouched by rain conditions remain unchanged. The temperature fell from 95 to 100, the latter at Hutchinson, Kan.

The rains, which came at the end of a drought of five or six weeks' duration, covered southwestern Missouri and portions of one-half of Kansas, taking in the southwestern corner of the former state from Riley and Dickinson counties down to the Oklahoma line.

The men claim the price paid for yardage on narrow work was reduced from \$1.50 a yard to \$1. A grievance committee representing the employees waited on General Superintendent Williams and stated that the agreement made with the company some time ago had been broken when the reduction in price was made. ## SYRUP OF FIGS

NEVER IMITATED QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, and the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please read the following facts of company printed on the front of every package.
